Murder of Prisoner to Be Avenged
at Once, Says the
Court.

Hot Springs, Ark., Dec. 27.—That the shooting of Oscar Chitwood, a white prisoner, while handcuffed in the custody of a deputy sheriff, will not go unavenged if his slayers can be identified, was assured today when Circuit Judge Evans announced a special grand jury will be summoned immediately after an inquest this afternoon. Chitwood was awaiting removal to Benton, Ark., for trial on a charge of murdering Sheriff Jake Hout. He was shot to death near the county jail yesterday as a deputy attempted to spirit him away from a mob.

MACHINISTS' STRIKE ABOUT TO BE SETTLED AT VERY EARLY DATE

Everything looks bright for an early settlement of the strike of the Baltimore and Ohio railroad machinists, which has been on since June, 1909. It is understood that a conference between representatives of the strikers and General Manager A. W. Thompson will be held today at which it is hoped that a definite understanding will be reached. The news that steps are being taken by which a settlement of the difficulties existing between the machinists and the company follows the official announcement of the resignation of J. D. Harris, as general superintendent of motive power of all the Baltimore and Ohio railroad lines. It is reported that the committee in conference with President Willard of the railroad company, has accepted the terms of the return and that a vote will be taken by the striking machinists at once.

Many Clergymen Among Those Hurt
When the New Structure
Gave Way.

Barberton, O., Dec. 27.—One man is dead and a half dozen laymen and clergymen injured as the result of the collapse of a tabernacle, built by ministers, late Monday afternoon. The dead man, J. H. Meyer, a real estate dealer, prominent in church circles, took an active part in the building of the tabernacle, in which a series of revival services were to begin next Sunday. He is survived by a wife and two sons.

The Dead.
J. H. Meyer, real estate dealer; 50; survived by wife and two sons.
S. G. Wolf, cut and bruised.
Rev. W. J. Thompson, pastor First Baptist church, cut and bruised.
Rev. U. M. Kober, back wrenched body bruised.
Harry S. Akers, leg broken.
George St. John, cut and bruised.
Gomer Edwards, cut and bruised.
Byron W. Barron, bruised.
W. Miller, back wrenched.

The tabernacle has been in course of construction for the last two weeks and was near completion. Forty ministers and helpers were on the roof, where they had been working all the afternoon. Their supply of lumber had become exhausted and they were waiting for a fresh supply. When a wagon drew near the building, the workers rushed to the side on which it drew up. The flimsy structure, awayed, the center supports gave way and all were carried with the debris, thirty feet to the ground. The work of rescue was at once commenced by those nearby and a hurried call was sent to police headquarters, ambulance stations and for doctors.

The offices of Drs. Mansfield and Snyder and the home of Harry Sump were turned into temporary hospitals and the injured received temporary treatment. The work of rescue, with the exception of Meyers, were sent to Barberton hospital. Meyers was taken to his home, where he died a few hours later.

As a result of the accident it was announced this morning that the revival services for which the tabernacle was being built would not be held. The work of reconstructing the building could be accomplished, but it is feared that the accident has scared the people so badly that they would not attend. Rev. S. G. Hart, the evangelist, will be notified today to cancel his Barberton engagement.

KISSED DYING VICTIM GOODBYE

Girl's Sweetheart Then Suicides
When Surrounded by the
Police.

Lancaster, Ohio, Dec. 27.—Miss Emma Deeds, aged 27, of this city was shot and fatally wounded yesterday by Oscar Emiler, aged 27, her sweetheart, who had just returned from Cleveland, after an absence of two years. The couple had been keeping company some time before Emiler went to Cleveland to work in a chain factory.

He returned Saturday, and Monday went to call on Miss Deeds. He found another young man in her company, and at the point of a revolver compelled the girl to accompany him to her home where, once inside the house, he shot her twice once in the head and once near the heart. The doctors say the girl cannot recover.

He then fled from the house, but returned and kissed the dying girl, then reloaded his revolver and started down the street. When the police surrounded him and he saw that capture was inevitable he shot himself through the head, dying almost instantly.

Just before Emiler left this city to go to Cleveland, he was warned by unknown persons and so badly frightened that he barely recovered. It is believed here that this occurrence offered his mind.

HERE'S A CHANCE AT MATRIMONY

Forest City, Iowa, Dec. 27.—There are any young lady clubs in this country organized for a matrimonial invasion, there is no more promising field than Forest City.

Fifty of the said old bachelors have just enjoyed their annual "round-up." They have made the count and find that every number has remained loyal to the organization, and that not one has fallen a victim to the charms of the gentler sex.

An elaborate six course dinner was served at a hotel, with plenty of enjoyable orchestral music thrown in. The prince of bachelorhood, Editor L. A. Aasgaard, acted as roaster, and the set address was made by Judge Shaw, the youngest judge in the state. T. A. Kingland, Dr. T. A. Hinson and Clint Merrick responded to toasts.

STATE TROOPS CALLED

Anarchy Breaks Out in Coal
Region of West Moreland
County.

Greensburg, Pa., Dec. 27.—A state of wild anarchy prevails throughout the Westmoreland county mining strike region. Serious rioting has occurred at Osborne and Yukon, and there has been much disorder throughout the entire field. Three murders have been committed in Westmoreland county in 24 hours, and detachments of the state constables have been rushed all over the region.

Those murdered are Tony Carcino, a striker, shot to death at Osborne; Martha Johnson, aged 22 years, killed at Vandergrift; John Kulger, slain by unknown persons at West Newton, and his cabin robbed. Early last evening men, said to be strikers, commenced firing on the Youghiogheny and Ohio Coal company's property at Osborne. About 75 shots were fired, but no person was injured.

Later a fight started among the strikers, who had been consuming large quantities of Christmas liquor. When the fight was over Carcino was found dying from three bullet wounds in the kidneys, and Mike Caterski and John Nathan, two other strikers, had fled. Sergeant Ames, of Troop A, state constabulary, was detailed to look for them.

About the same time word was received of rioting at Yukon, where men said to be strikers were shooting up the camp of the strikebreakers. Captain Leon Pitcher, of Troop A, sent five men there, increasing the detail to 15 men. So far as known, no damage was done.

There has been a steady demand all of today for state constabulary all over the Greensburg field. All the demands have been complied with, and tonight only two troopers remain in the barracks. Twelve have been sent to Bradenville, six to Madison, two to Claridge, two to Adamsburg, four to Irwin and four to Somerset.

The trouble all seems to have been caused by the immense quantities of liquor shipped into the field, and a general outbreak is feared.

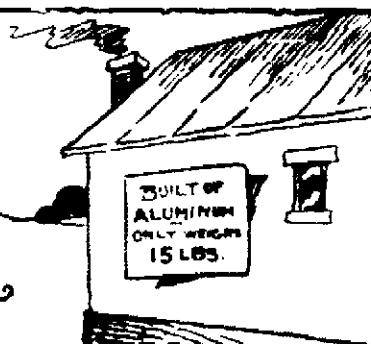

At Vandergrift, during a Christmas eve celebration at the home of Robert Clark, Martha Johnson, aged 22 years, was murdered, being shot under the left eye. Clark and Thomas and Maria Alexander were locked up. It is said a large amount of liquor had been consumed. When the officers entered they found the inmates of the house drunk and reeling about the dead body of the woman on the floor.

At West Newton the body of John Kulger, a recluse, was found in his shanty Christmas morning. He evidently had been murdered, as his right arm was almost severed and there was a gash five inches long over the right eye. A bloody ax lay near by. Kulger was reported to be rich, and a large sum of money may have been taken.

At the height of the Christmas festivities eight Montenegriats charged with drawn guns on the home of Michael Povlish, a Slavish miner and carried off his wife. Povlish gathered together a large number of his fellow countrymen and attacked the Montenegriats' houses. They were repelled by revolver fire several being wounded but none of them fatally.

Sheriff Amrine appealed to by the woman's husband formed and rushed a posse in bob-sleds to the scene and the Montenegriats surrendered. The woman was in a serious condition. The prisoners were taken to the St. Clairsville jail.

CHAUFFEUR AFTER JOHNSON'S BLOOD

Chicago, Dec. 27.—That Jack Johnson's heavy weight championship career came nearly being ended by a bullet became known today when the big fighter appeared to prosecute George Leland, an other chauffeur, who was arrested after he had threatened to shoot Johnson if he did not leave town.

Leland, Johnson said, appeared at the big fighter's home last night and asked for him. Told that the fighter was absent, the chauffeur said he would have to wait. Leland then entered the house and shot Johnson. When the news was received of the shooting the champion vanished. Later it is said he returned in a taxi to a corner near the Johnson home, supposedly to lay the fight with Leland. Johnson was arrested.

New York, Dec. 27.—Roosevelt has not decided to take for president in 1912. He made this fact most emphatic when seen at the Outlook office today. Both train crews were buried under the wreckage and the bodies of the dead were horribly mangled.

Family Trouble Results in Death
of One and Probably
Both.

Wellston, O., Dec. 27.—Late yesterday afternoon Frank Buckley followed his wife to the home of a sick friend, fatally stabbed her and with the bloody knife in one hand and a revolver in the other, held a crowd of bay, threatening to kill anyone who interfered with him, until Patrolman Henry Shires came and shot Buckley through the heart, killing him instantly. There is small chance of the woman's recovery.

The two little daughters of Buckley, Cynthia, aged 8, and Gertrude, aged 5, were witnesses of the crime of their father and of his death from the policeman's shot.

An insane, but, it is said, wholly unwarranted jealousy prompted Buckley to attempt the murder of his wife. The husband, who was a miner, his wife, aged 26, and their little daughters, went to home of Louis Boggs, a neighbor, to spend the afternoon. Another son was Stanley Slagel, Boggs' nephew who came from Gallia, Furnace, Ohio. Slagel left the house for a day, and in his absence Buckley and Mrs. Buckley of liking Slagel, who she had met only an hour or two before.

Buckley then ran to his own home, a couple of blocks away, and returned to the Boggs' home, where Slagel, who in Buckley's sense had returned to his home, Buckley hit Slagel in the face and pushed through to the kitchen where Mrs. Buckley was doing the housework. Without a word Buckley struck his wife and then rushed into the yard, where she ran safely, and stabbed her through the kidneys.

Boggs, who was caring for his wife, rushed to the wounded woman's assistance, but was ordered away by Buckley, who picked up his wife's tenderly laid her on the sofa, a compelling Mrs. Boggs, the sick man, to go out into the snow.

A second time Buckley went to his own home, and returning with a revolver, he displayed both knife and gun and threatened death to anyone who would attempt to arrive or minister to his wife.

The Buckleys moved here months ago from Hamden, a husband and wife were from families, and each has borne a reputation.

At a prettily appointed Christmas dinner Sunday at their home in East Church street, Mr. and Mrs. Elinu B. Coleman announced the marriage of their daughter, Miss Cora Jane, to Mr. James Earl Coad of Cincinnati, the marriage having taken place on August 17, in the Episcopal church at Cincinnati, the Rev. H. Boyd Edwards having performed the ceremony and the young people being attended by Mr. and Mrs. Wallace Davis of Queen City.

The marriage announcement will come as a great surprise to the many friends of the young people in Newark and vicinity. It was expected that the marriage would occur some time during the present holidays, but they stole a march on their friends by having the ceremony performed last summer.

Miss Coleman is a graduate of the class of '05 of the Newark high school. She is an excellent musician and a great favorite in the social circles in which she is prominent here.

In Paris the "Citoyenne" blouse, as it is called after a form of waist worn during the days of the French revolution, is the dernier cri, and these waists will soon be as fashionable in America, though only a few models have been seen here as yet.

The "Citoyenne" or basque-blouse, is loose and roomy above the waistline and often has the seamless shoulder and sleeve. Attached to the waistline under a belt, or sometimes merely a cording, is a short petum which sets flatly over the hips.

The waist illustrated is made of gold lace laid over green chiffon. The satin trimmings are in the green tone with small gilt buttons. The belt fastens with an oval ornament made of the gold lace.

is at home from Smith College for the holidays. Miss Webb will be a debutante next year, and Friday's festivities were a little preliminary foray into the field of society. Mrs. James H. Perkins assisted Mrs. Webb as chaperon, and the other guests were Miss Charlotte Webb, Mary Belle Davidson, Isabelle Pennington, Gladys Ingalls, Beatrice Shillito, Mildred Shillito, Mary Groesbeck, Frances Smith, Frances Foreheimer, Judith Colston, Anne Louise Irwin, Dorothy Sattler, Dorothy Lawson, Sara Ernst, Mary Wilby, Miss Katherine Wilby, Ethel Wright, Louise Taft, Mary Kiggins Miller, Mr. Webb came in with the coffee, to have a glimpse of the pretty scene, and made a merry tour of the table. —Cincinnati Enquirer.

Mix one pint of granulated sugar with 12 pint of warm water, and stir for 2 minutes. Put 2½ ounces of Pinex (fifty cents' worth) in a pint bottle; then add the Sugar Syrup. Take a teaspoonful every one, two or three hours.

You will find that this simple remedy takes hold of a cough more quickly than anything else you ever used. Usually ends a deep-seated cough inside of 24 hours. Splendid, too, for whooping cough, chest pains, bronchitis and other throat troubles. It stimulates the appetite and is slightly laxative, which helps end a cough.

This recipe makes more and better cough syrup than you could buy ready-made for \$2.50. It keeps perfectly and tastes pleasant.

Pinex is the most valuable concentrated compound of Norway white pine extract, and is rich in quaiacol and all the natural pine elements which are so healing to the membranes. Other preparations will not work in this formula.

This plan of making cough syrup with Pinex and Sugar Syrup (or strained honey) has proven so popular throughout the United States and Canada, that it is often imitated. But the old, successful formula has never been equalled.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

Miss Burke was on the stage when the curtain was lifted, and it was three minutes before the winsome little star could quiet her audience and begin her lines. Throughout the three acts of the comedy she was always in the picture, and her work, if anything, was better than in any other play in which she has been seen in New York.

HEART and HOME TALKS by Barbara Boyd

Some Resolutions for Social Life.

SOME diversion and relaxation we must have. If it doesn't come to us, we must seek it. But what shall it be, and how much shall there be? In this time of casting up accounts it is well to study the question. It pays in life to decide what port we wish to make and to deliberately direct our course thither. We are much more likely to reach the desired haven than if we just drift. Therefore, even about this matter of social affairs, which by many are not regarded as pertaining at all to the serious things of life, it will do no harm to make a few New Year resolutions.

Shall our social life be purely frivolous—something that fills time and mind for the moment, but leaves no aftermath but ennui and bills, or shall it give us genuine enjoyment and leave pleasant memories and inspiration?

Our pleasures help build our character as well as does our work. Let one resolution, therefore, be that our pleasures build for strength instead of weakness.

How shall we go about achieving this?

For one thing, it will mean the refusing of all invitations that stand for worthlessness.

If an invitation means simply "gobble, gobble and git," as Holmes puts it, is it worth accepting? If it stands simply for a crowd, no member of which is particularly congenial, for elaboration, ostentation, if the only satisfaction in it is the fact that you can say you attended it, if it brings an obligation to return it in kind, is it worth while? Would it not be wise to resolve to cut out such functions?

Would it not be wiser to resolve to further simpler hospitality, in which you give of yourself and not of things the decorator and caterer provide, to resolve to cut out ostentation and elaboration and to bring in simple, genuine hospitality?

Social affairs, whether a matter of cards, dancing or conversation, are worth while if we go from them the happier for having been there and inspired to perform more cheerfully our part of the world's work. Social affairs, no matter of what kind, if they leave us discontented or worried or unwilling to go back to the daily grind, are not worth while.

This is a good season to study this matter of our amusements a bit and to see on which side we are allying ourselves.

A year is ahead of us for growth toward happiness or toward discontent and worry. The pleasures we choose will have much to do with the outcome twelve months from now. Whether we entertain on a large or small scale, whether our engagements are many or few, is not the question. It is the kind of entertainments we give, the sort of places we go to, the friends we choose, that counts.

It is on these points we should center our New Year resolves.

A Poor Weak Woman

As she is termed, will endure bravely and patiently agonies which a strong man would give way under. The fact is women are more patient than they ought to be under such troubles.

Daddy's Bedtime Story

The Birds, the Beast
And the Bat

BEFORE I tell you the story," began daddy one evening. "I must ask you youngsters whether you know what a bat is."

Both Jack and Evelyn had seen bats flying around the house at night, and they had seen stuffed ones in a museum, so Jack said: "It's a little animal which looks like a mouse with wings, isn't it, daddy?"

"Quite right," said daddy, and then he began the story.

"One day, long, long ago, all the birds in the world had a quarrel with the animals. There was great fighting between the two, and neither side won the war.

"But did not know which side he should take. He was a shy animal, and wanted to see which side would win. If the birds won he would be a bird, and if the animals won he would say he was an animal. At one time it seemed that the birds would win. There had been a great battle and the animals had run away from the birds. So the bat went over to the eagle, the king of the birds, and said:

"Well, we can congratulate ourselves, we birds, can't we, on having beaten those ugly animals?"

"Why, whoever said you were a bird?" asked the eagle.

"Certainly I am a bird," said the bat. "Don't you see my wings. Whoever heard of an animal with wings?"

"The eagle was convinced and let the bat remain among the birds. Most of them did not like him because he had a hairy body without feathers, but they were too polite to tell him to go away.

"Shortly afterward there was another great battle between the animals and the birds. This time the animals won. When the bat saw this he went to the lion, the king of the animals, and said:

"Well, we beat those flying, feathered things."

"Well, we," said the lion. "Why, you are a bird yourself. Go back where you belong, among your feathered, flying friends."

"Then the bat said:

"Why, I am not a bird. Look at my teeth and my hairy body. Did any one ever see a bird which had teeth and a hairy body?"

"But the lion was wiser than the eagle and told him to go away, that he had sided with birds when they had won, and now the animals wanted to have nothing to do with him. And so to this day the bat remains alone, away from birds and animals, flying out only in the nighttime, as though he were ashamed of himself."

THINGS OF JULY WHICH SHALL BE TO ALL Will Come the Long-Promised Peace?

And When the Good Will to Men?—Nations Still Making Unprecedented Preparations For War.

PASTOR RUSSELL

CHATTANOOGA, Tenn., Dec. 25th.—Pastor Russell of Brooklyn Tabernacle preached here today in the afternoon on "The Great Hereafter" and in the forenoon from the text below quoted. On both occasions his audiences sat spellbound for a much longer time than the majority have been in the habit of listening to a discourse. Deep eagerness was also manifested to receive from the ushers at the close free copies of Pastor Russell's booklet on "What Say the Scriptures About Hell." The speaker said:—

Eighteen centuries and more have passed since Israel's greatest Prophet, Jesus, sent forth his message of reconciliation to God. At the time of his birth angel visitors, announcing him, declared that his birth signified "good tidings of great joy which shall be to all people" and that this would mean "peace on earth and good will amongst men" (Luke II, 10, 11). Yet after eighteen centuries these prophecies are still unfulfilled. We find the world in more warlike condition at present than ever before. Europe has a standing army of over a million of the picked men of its several nations. And even our own country has deemed it necessary to considerably increase its standing army. On every sea are great battleships requiring thousands of men and millions of dollars for their upkeep, not to mention the millions of dollars which they originally cost.

And still more war vessels are planned with greater guns, some of which expend thousands of dollars for powder and shells for even one day's target practice. It is safe to say, too, that the chief interest in and chief backing of recent experiments in aerial navigation come from the War Departments of Christendom, which see in such devices a new method of warfare. And the latest information is that a new torpedo has recently been invented more powerful, more destructive, more terrible, than any previous device.

What means this great battle array, this preparation for a great struggle between the nations? Why do not the nations disband their armies and dismantle their navies and turn these wasted energies to human profit, to making the earth to blossom as the rose? The answer is—Sin. Sin marred the original God-likeness of love in the human heart and, instead, implanted the opposite disposition of selfishness. By heredity sin and selfishness have permeated our race. As we read, "Behold, I was shapen in iniquity; in sin did my mother conceive me" (Psalm li, 5). This is true of the entire human family. We grieve the surface. We make a show of giving a little money for the education of the heathen. We make a little show of religious activity in Christendom, but the great surplus of wealth is spent in self-gratification—alcoholic beverages alone consuming manyfold the amount doled out to benevolent enterprises of all kinds.

Peace, Peace; but No Peace.

For centuries the world has been crying out, "Peace, Peace; yet there is no peace," but still greater preparation for war. Why? Because, despite our gloss of civilization, the world well knows its own selfishness, its own greed, its own thirst for power and it wisely reasons that in others selfishness and greed similarly rule. Hence, with all their protestations of friendship all the governments of the world distrust, disbelieve one another. And now we have reached a place where the disbanding of the armies of the world would be a dangerous matter. Another million of men thrown on the labor market, already glutted, would be dangerous. And to leave our cities unprotected would invite anarchy in every land. We are not endeavoring to disconcert peace conferences and federations. We are merely calling attention to facts—indisputable facts.

The Scriptures graphically describe our present condition. They give us a word-painting of what is now going on, saying, "Rear your plowshares into swords and your pruning-hooks into spears. Let the weak boast that they are strong" and endeavor to keep pace with the strong. "Come, get ye down to the Valley of Jehoshaphat—the valley of death—the place of the great struggle with which the reign of the Prince of Darkness shall terminate and which will prepare the way for Messiah's Kingdom (Joel III, 1-13).

Thank God for the assurances of His Word that the great "time of trouble," such as never was since there was a nation," which is about to burst upon the world, whose masses are better educated than ever before and trained to the use of all military equipments, will be but a short struggle. The information of the Scriptures is that if those days should not be shortened, no flesh would survive. But for the elect's sake—by virtue of the Kingdom of God's elect being established—those days shall be shortened. Then will come the reign of the Prince of Peace

and, as the prophets declare, he shall be like unto Solomon who had no wars, but to whom every knee bowed and every tongue confessed. His Kingdom of righteousness will be a Kingdom of peace, notwithstanding the fact that it will be ushered in by such a time of trouble.

"I Came Not to Send Peace."

But do the Scriptures contradict themselves? What did the Great Teacher mean when he declared, "I came not to send peace on the earth, but a sword?" (Matthew x, 34). Ah! he referred prophetically to the effect which his gracious message of love and favor would produce in the world during the reign of sin. He well knew that the Prince of Darkness would oppose all of his followers, as well as himself. He foretold that whoever would live godly would suffer persecution—and so it has been. Eighteen centuries have proven it! He sent forth his followers, like himself, unarmed, to follow peace with all men and holiness, without which no man shall see the Lord. He counselled his followers, "He that taketh the sword shall perish by the sword." But their message of peace and love and the coming Kingdom which shall bless the whole world and fulfill the angelic prophecy of our text—these things seem to anger the world—not merely the vicious, the ungodly, but the worldly professors of godliness who have schemes and plans and theories of their own to work out which are contrary to the Gospel Message. The darkness, more or less mixed with selfishness, hateth the light, the Truth, the love of God, neither cometh to the light, lest its deeds of darkness, selfishness, selfish ambition and hypocrisy should be made manifest.

The Master knew what the effects of his Gospel Message would be in the world and that only those who would compromise his Message could possibly live at peace—that all who would be loyal and faithful to him would be slandered, persecuted, "beheaded," either literally or figuratively. His words, therefore, were a prophecy respecting the tribulations which all his footstep followers would surely have.

But more than this, his words were a prophecy respecting the nations. What is it that has brought us to our present degree of civilized savagery? What is it that makes of every business corporation a buccannier seeking the destruction of every competing financial craft? What is it that has thus sharpened the wits of humanity to such an extent that the majority find it difficult to be honest, because they see so many opportunities for dishonesty, while it is impossible for law-makers to make new laws with sufficient rapidity to keep pace with the intelligent methods of circumvention.

The laws, doctrines, of Christ are, in a certain sense, responsible for all this. The liberty wherewith Christ makes free his followers and the light which he and they let shine upon a darkened world, received in part into unsanctified hearts and minds, have given wisdom that, misapplied, we call cunning and craft. The proof of what we say is found in the fact that other nations than those which have received this reflected light of Christianity are still quite in the back-ground. Only now, as Christian civilization in a perverted form is reaching these peoples are they awakening and becoming competitors with so-called Christendom.

In our advanced conceptions of finance, warfare, etc., a pertinent question worthy of deep thought, is, Will it be possible to live in the world at all after the greatest financial minds shall have "trust-fled" all of the world's business, and after the labor organizations shall have had their say as to who shall and who shall not earn a living, and after the teeming millions of China and Japan shall have become thoroughly civilized and Christianized after the nominal sort? Would not the borders of the Far East overwhelm the comparatively little handful of Europe and America? What is the prospect of the fulfillment of the prophecy of our text—"Peace on earth, good will toward men?" There is no prospect from the earthly sources toward which we have been looking. If that prophecy is ever to be fulfilled it must be by some Divine intervention in human affairs.

The Desire of All Nations Coming.

Notwithstanding the eighteen centuries of delay our text as a prophecy will surely be fulfilled, and be fulfilled, too, by and through the One whom the angels announced and whose birth is very generally celebrated today. The Great Teacher, questioned by Pilate, answered that he was born to be a King—the King of the Jews; but he also added, "My Kingdom is not of this Age." How true! Many of us have gotten the wrong impression—that our Redeemer has been waiting, as the Great King of Glory, an unsuccessful warfare for eighteen centuries against Satan, sin and death. But here we learn from the Great Teacher's own lips that his Kingdom is not of this Age. It belongs to the "world to come"—the Age to come.

Do we inquire, then, who has been the ruler of this world, this Age? The answer of the Master is that Satan is the Prince of this world. He is a usurper. The dominion of earth was given to man. But Satan, deceiving our race, putting darkness for light, has become thereby the real ruler, using humanity merely as his tools. He is styled "the god of this world," and the "Prince of this world," or age. And we are told again that "He now worketh in the hearts of the children of disobedience." When we reflect how many of humanity are disobedient, we see the vastness of the empire controlled by the Prince of Darkness. And when we see the few, comparatively, who are soldiers of the cross and followers of the Lamb we perceive that, as the Master

said, his following during this age is to be a "little flock."

Perplexed and confused many may ask, What, then, is the hope of the fulfillment of our text, "Peace on earth, good will toward men?" We answer that our Master, who declared that he was not the Prince of this age, declared also that his Kingdom of the next age will be introduced with power and great glory and that, although its initial manifestation will be with clouds and darkness and a time of trouble such as never before has been, nevertheless his reign will be glorious, triumphant and eternal. "He shall take unto himself his great power and reign" until "he shall have put all enemies under his feet." "The last enemy that shall be destroyed is death." "Unto him every knee shall bow and every tongue confess."

The victory of Emanuel means the overthrow of sin—the crushing of the serpent's head. At the very beginning of his glorious reign Satan shall be bound and following its close he shall be destroyed in the Second Death, together with all those who love unrighteousness, after they shall have had full knowledge and full opportunity for recovery from the snares of sin and death. Then, indeed, the whole world will proclaim the glory of God. There will no longer be discordant sounds. As the Scriptures declare, There shall be no more crying, no more sighing, no more dying—all the former things of sin and death shall have passed away (Rev. xxi, 4).

The Great Restorer of All.

The great King who, eighteen centuries ago, died, the Just for the unjust, that he might, judicially, bring mankind back into harmony with God, is to be the Great King of earth, the great Restorer of all that was lost in Adam, and he will make all things new" (Revelation xxi, 5).

Everything appertaining to this great Plan of Salvation outlined in the Word of God is reasonable. The crucial testing of the elect Church is necessary in order that, as faithful and merciful priests of God and of Christ, associated with him in his kingly glory, they may be God's instrumentality in sundering mankind from the fallen conditions which have resulted from six thousand years of sin, and from the malignant influence of the Prince of darkness, during the thousand years which the Bible stipulates as the period of Messiah's reign (Revelation xx, 6)—a period neither too long nor too short in which to accomplish the great work of the world's salvation.

True, some one might say, If it has required eighteen centuries for the development of the Church, how much more time will be necessary for the uplifting of the world? But we answer that it is not the Divine Purpose to uplift the world to the station of spirit nature and glory, but rather to restitution blessings and curation. It is because of the high exaltation offered to the Church that such crucial testings of sacrificial obedience even unto death is required. With the Prince of darkness bound and the Sun of Righteousness arising with healing in its beams the darkness of sin and crime and sorrow will soon flee away.

One century of such blessed influence upon the world will surely work wonders, bringing in also inventions and comforts and blessings, as yet undreamed of. Next will come the gradual awakening of all who have fallen asleep in death. They will come forth from the prison-house of death, as the Scriptures declare; will come forth with the true God and with his glorious Son, the Redeemer, and with the principles of righteousness in contrast with the principles of sin.

We cannot suppose that it will require the majority of men, under those conditions, to sit long counting the value of the blessings of eternal life and restitution proffered them. The upward move, resurrection, uplifting, regeneration, will go rapidly on, while meantime, generation after generation shall come forth from the tomb and enjoy similar experiences. Finally all shall have come forth, because the love of God made this provision through the death of our Redeemer, who delighted to do the Father's will and who has already been rewarded gloriously with high exaltation to the divine plane of glory, honor and immortality.

Good Will Amongst Men.

The attainment of the condition of good will amongst men will mean the attainment of human perfection. God is Love. And when our first parents were created an earthly image of God, love must have been the predominant quality of their characters. What we see of selfishness is largely a matter of heredity, and all of life's customs are in line with it and continually increasing its weight and its hold upon us. But with the new King and the new reign of righteousness will come the glorious uplifting and transformation. Gradually, during the thousand years of Messiah's dominion of the world, the evils of selfishness will be made apparent and the beauties of holiness and love will be shown in contrast.

Restitution rewards will lift all the willing and obedient out of sin and selfishness to holiness and love. Then, with love the very essence of man's being, good will towards men will everywhere prevail, because the Divine law, almost effaced through the reign of sin, will be rewritten in the human constitution. "That Law as we know, 'Thou shalt love the Lord thy God with all thy heart, with all thy mind, with all thy strength, and thy neighbor as thyself.'"

Finally, dear friends, how glad we are that this is true; how glad we are that the terrible falsehoods palmed off on us during the Dark Ages respecting a God of hatred and a hell of torture everlasting are not true!

GOOD COMPLEXION ADDS CHARM TO ANY WOMAN.

Seaver's Laxative Tonic Tablets Will Produce Good Complexions.

Among the many charms for which women are especially noted, not one of them is so quickly recognized and admired as a good complexion. Every woman, regardless of the station she may occupy in society, owes it to herself as well as her associates to properly safeguard the beauties with which nature has endowed her.

The inactivity of the liver, and bowels is the direct cause of pimples, sallowness, muddy skin and the many other blemishes common to a poor complexion. Seaver's Laxative Tonic Tablets are largely composed of dandelion, and any physician will tell you there is nothing better to create a healthy condition of the skin and complexion. A 25-cent package of these tablets contains enough of the remedy for a fair trial and your money will be cheerfully returned by Erman & Son if you are not greatly benefitted by their use.

Do not delay but give Seaver's Laxative Tonic Tablets a fair trial and you will agree that all our claims are absolutely true.

NEWARK MEN IN BIG REALTY DEAL IN COLUMBUS

Dominion Land Company Buys 4000 Feet Frontage on Both Sides of East Broad Street.

The Dominion Land Company, of which Edward W. Clayton is president, John A. Chicote sales manager, and Edward Hibbert treasurer, all three Newark men, has just purchased 200 acres of land within four miles of the state house in Columbus, the land having a frontage on each side of East Broad Street of 4000 feet. The ground is to be divided into building lots and put on the market the coming spring.

Negotiations for some of this land have been pending for the past two or three years. The total purchase is said to approximate 200 acres, and will constitute the largest development of high class property ever attempted in Columbus.

It is expected as one result of the purchase that the East Side will soon rival the North Side in building operations. New buildings in the Twelfth ward have exceeded a million dollars per year for the past few years and the present rate of building there will consume the few remaining lots before midsummer of this year. Real estate men in touch with this situation have been eagerly accessible and attractive to fill this demand.

The tract just purchased on East Broad Street is within less than four miles from the state house and has a local car line along its entire western front and with the strong probability that the Oak and Long street lines will be extended. The need for building space is met for the time being.

The company will protect the section with building restrictions. Engineers are already at work surveying the streets and establishing grades. The improvements will probably be completed and the property placed on sale before the middle of the summer.

STILL AT IT

It Was Hobson—Now It's Wood Who Wants Big Army.

Washington, Dec. 27.—The United States is now unprepared for real hostilities with a first-class power. This is the testimony of Major General Wood before the house committee on military affairs made public today. Wood appeared before the committee during the consideration of the army appropriations bill. He made a plea for a more mobile and a greater army, and said the ammunition at the disposal of the artillery at present would not last through a general engagement. He makes a strong plea for a close knit organization.

Wood heartily endorsed the Hobson bill, providing for a military council of defense, declaring that some such system was necessary.

MARRIAGE

OF A CHARMING GRANVILLE YOUNG WOMAN TO HAM. ILLINOIS.

Old-Fashioned Clay Shoot Event of Christmas Celebration—Comings and Goings About Granville.

Granville, O., Dec. 27.—A quiet home wedding was solemnized Monday afternoon at the home of Mr. and Mrs. Charles C. Thornton, of this place, when their daughter, Miss Edna, was united in marriage to Mr. Charles Henry Lake of Hamilton, O., formerly of Granville. The ceremony was performed by Dr. C. J. Baldwin in the presence of only the members of the immediate family. The bride, who is one of Granville's most popular and charming young ladies, is a graduate of Denison University, and a member of the Chi Psi Delta sorority. Mr. Lake is a graduate of Ohio State University, from which he recently received the master's degree. He is a member of Phi Gamma Delta fraternity and of the honor fraternities of Phi Beta Kappa and Sigma Xi. He is at present principal of the Hamilton high school. The bride was attired in a traveling costume of dahlia broadcloth, with hat in corresponding shade. Immediately after the ceremony Mr. and Mrs. Lake left for a short trip after which they will make their home in Hamilton, Ohio.

An old-fashioned clay shoot was one of the events of the Christmas celebration in Granville. The shoot took place on the Beaver athletic field and was participated in by the crack shots from Newark, Granville, Hebron, Utica and other places, and some remarkable scores were made. Another shoot will be held on Monday of next week, when a number of the turkeys will be awarded to the best shots.

Mr. and Mrs. D. M. Clayton and daughter, Miss Elizabeth, of Hamilton, O., who has been visiting relatives and friends here for a few days, returned home Tuesday.

Mrs. Smoke, wife of Mr. W. H. Smoke, a well known foreman of a Toledo and Ohio Central railroad section gang, at this point, died at her home on South Cherry street, on Monday morning about 4 o'clock, after an illness of some time. The deceased was well known and highly respected in the community in which she lived, and the bereaved husband and two children, a son and a daughter, who survive, have the sympathy of their many friends.

The regular meeting of Myrtle Lodge of Odd Fellows was held in Odd Fellows' hall on Monday night, and, notwithstanding the fact that it was a holiday, there was a large attendance of the members and considerable business of importance was transacted. There was work in the initiatory degree, and there will be work in the first degree at the meeting to be held on Monday evening of next week.

Mr. and Mrs. F. B. Moore and two children, Helen and Arthur, of Des Moines, Iowa, who have been visiting relatives and friends in Granville and vicinity for the past two weeks, will return home on Wednesday of this week.

Thomas and Evan Edwards, of near Bucyrus, spent Christmas at the home of Mr. and Mrs. D. C. Edwards southeast of the village.

ROCKEFELLER

Wanted to Take Denison University to Cleveland, but Trustees Declined the Offer.

Incident to the completion of Mr. Rockefeller's great gifts, aggregating \$25,000,000, for the establishment of the University of Chicago, there is arising an interesting episode to the effect that all these millions hitherto under other circumstances, have been bestowed upon an educational institution in Ohio, says the "Columbian Dispatch." The story is that Mr. Rockefeller, who is a Baptist, some 25 years ago proposed to the trustees of Denison University that, if they would remove the college to Cleveland, Mr. Rockefeller's home, he would handsomely endow it. At that time as now, there were upon the board of Denison wealthy and influential men of Dayton and Cincinnati, and their counsel was against the acceptance of the proposition. Their advice prevailed and the col-

lege remained at Granville, where it had grown to creditable proportions, though not of course, as rapidly as it would have grown under the notable Rockefeller gifts. Mr. Rockefeller went to Chicago to establish a great university, taking Dr. William R. Harper from Denison to be its executive officer. A half dozen or more Denison men, professors or graduates, soon followed and became members of the Chicago University faculty and there they are still to be found. The total endowment of Chicago University is now \$41,508,758, a magnificent educational fund capable of a splendid work anywhere. That Ohio did not get it may be a matter for regret, but the continuing good, with the investment where it is, may be as well shared by all, as if it had been placed in Ohio.

AFTER BIRDS

MILLINERS AND MARKET MEN WANT FEATHERED MEN

Protective Laws to Be Attacked—Game and Wild Birds May Suffer.

New York, Dec. 27.—Declaring that the new year of 1911 is to mark the fiercest struggle in recent years to save American bird life from its human enemies, officers of the National Association of Audubon societies are today perfecting plans here to combat the commercial interests that are plotting to break down protective laws in many of the legislatures of forty states. Men and money are to be used without limit to overthrow groups of milliners and market supply men to rob their feathered prey of the scant legal protection that has been given them, according to advices that are being received from all over the country. Unless sportsmen, farmers and bird lovers rally against this well organized force of bird butchers, it is predicted, incalculable harm will be done in depleting the nation's game birds as well as the flocks of insect eaters that protect the crops from pest.

In states where spring shooting laws now save migratory flocks from slaughter at the hands of professional pot hunters, the men who stock the markets, the men who determine to work the repeal of those statutes that were made to shield the breeding birds. Already the game dealers, whose army of spring shooters out on Long Island almost drove to extinction the ducks that flew north along the eastern coast, are known to be plotting the death of the law that checked their activities. In Massachusetts and many other states similar license to raid the resources of game birds is to be sought. For the benefit of the palates of wealthy epicures all laws restricting the storage and sale of game are to be attacked by the market interests, the Audubon officials have been informed.

Most powerful of all the monied interests to war on the welfare of the nation's birds, the milliners are today known to be organizing a campaign to break down laws that protect the wild flocks that they formerly butchered for their plumage. Since a ban was put upon their traffic in aigrettes and the plumage of useful wild birds in New York state last year, it is acknowledged that the sales of these trophies of wholesale bird butchery have been cut down to a quarter of their former volume. To lay hands once more upon the mother heron and the birds that guard the country's crops, it is said the feather dealers are ready to expend a vast amount of effort and money.

Calling upon the farmers, sportsmen, orchardists, planters and the ranchmen of the whole country to take the part of the birds that save their fields and forests from destruction by insect pests, the National Association of Audubon societies is today preparing to meet the commercial bird killers before every legislature in the land. Special funds are being raised to send ornithological experts to answer the lawyers hired to break down bird protective laws in many states. Organizations of sportsmen as well as bird lovers throughout the country are already offering active co-operation in this campaign.

"The birds of America never needed the help of everyone interested in them for economic or sentimental reasons more than they do this year," said T. Gilbert Pearson, secretary of the National Association of Audubon societies at its headquarters, 141 Broadway, today. "The monied interests that fatten on bird slaughter are alive to their opportunities to shake off the legal restrictions that have been put upon their greed. We are also alive to the emergency, and with the support of the people will fight to the last ditch for American bird life."

One \$10 fire was the extent of the damage done during the past three days in Newark. The East Newark and Central companies responded.

A still alarm Tuesday morning was sent into Central station, causing them to respond and extinguish a kettle of blazing tar, at the rear of the Doty House. No damage.

FIREMEN WERE REMEMBERED

The city firemen of the Central, Newark, West Newark, and North Newark stations wish through the Advocate to return their sincere thanks for a box of fine cigars presented to each station by his honor, Mayor Ankele, as a reminder of Christmas. The boys always appreciate favors of this kind, and specially coming from the chief executive.

At the Central station C. W. Donce, the druggist, Mr. Edwards, the Fourth street barber, and Dr. Williams, the veterinary surgeon, also gave a box of cigars; while at the East Newark station the mayor's gift was supplemented by a like one from Mr. George Fromholz and Mr. George Gore.

At the Central station several papers with detailed accounts, accompanied by photographic cuts, of the recent terrible holocausts in Philadelphia and Chicago, have been received. Those from Philadelphia were from Joseph J. Mathias, while the Chicago papers were sent to Captain E. Williams by Mr. Harry Richardson, formerly of Newark.

IMPRESSIVE

ANNUAL CHRISTMAS SERVICE OF KNIGHTS TEMPLAR HELD SATURDAY.

Fine Program at Asylum of St. Luke's Commandery—Large Attendance.

One of the most impressive observances of Christmas and all of the hallowed associations with which this day is connected, is that which the Knights Templar throughout the United States celebrate annually, at their respective asylums at 11 o'clock on Christmas morning, so that at the same hour hundreds of commanderies are devoted to the same duty at the same time.

St. Luke's Commandery, No. 11 of Newark, reported at the asylum on West Main street at 10:30 o'clock on Christmas morning and promptly at 11 o'clock the exercises began, and the following program was carried out:

NEWARK MEN

HURT IN WRECK

COLLISION OF FREIGHT TRAINS AT BRIDGEVILLE CAUSES A BAD SMASH-UP.

A bad accident occurred at Bridgeville, a small station a short distance west of Zanesville, on the Baltimore and Ohio railroad, about 7 o'clock Monday evening. The first section of Baltimore and Ohio train No. 27, stopped at Bridgeville and headed into the siding. Before it could get into the clear the second section of the train crashed into the rear of the first section. The engine of the second section and the caboose and four cars of the first section went into the ditch. Conductor William Tollett had his legs and chest crushed. Brakeman E. B. Keaton had his face badly cut but aside from this escaped with a few injuries. Brakeman J. W. Rutherford had his right hip badly injured, while Fireman W. E. Wilcox was burned about the head and face, although not seriously. All the men live in Newark and were brought here as quickly as possible.

The ambulances of George Bowers and Criss brothers, who are at the depot to meet the train, as were Drs. H. R. Anderson, J. G. Shiner and D. E. Barnes. Upon the arrival of the train here, however, it was found that all of the men with the exception of Conductor Tollett were able to walk to their homes. The tracks at Bridgeville were blocked for several hours, and it was necessary to send the wreck train down to clear the wreck.

STANDARD TO SPEND MILLIONS

In Developing Ohio Oil Field From Lake to River.

Pittsburg, Dec. 26.—The Standard Oil company is planning to spend millions of dollars in developing new oil territory in Ohio. Between 100,000 and 200,000 acres are under lease by the Standard and independent producers. The territory extends over 11 counties, from Lorain on the north to Hocking county on the south. Oil development has been going on for the last two years in some of the counties, and the indications are that the new field will prove rich.

Oil men have held that there was an arch dividing the Trenton and the Clinton sand formations in Ohio, which extended from Sandusky on Lake Erie to Cincinnati, and as the production formation dips about 20 feet to the south, it was considered impractical to search for oil in the counties mentioned. Some experienced farmers at Bremen started drilling two years ago and brought in a good well, showing the fallacy of the opinions held by oil men.

Knowledge of the strike was kept secret for a while and other wells were put down and good producers being obtained, the Standard stepped in and bought the production of these wells, and the independents, led by Roswell D. Crick of Pittsburg, are also covering the territory with leases.

POOR HOUSE

VOTES GOT THE MONEY IN ADAMS COUNTY, LIKE THE OTHERS.

May Be Four Hundred Vote-Sellers Not Yet Discovered.

West Union, O., Dec. 27.—The bribery investigation continues to grow spicier, as developments come out in fine. Republican vote buyers who had come into court to confess complained bitterly Tuesday that a batch of voters who lived in the county infirmary and whom they had bought to vote for their ticket had been feloniously stolen from them by the Democrats.

The Republicans had promised to pay the men from the poor house \$5 for a vote. This was considered a bargain, inasmuch as infirmary votes had in previous years been quoted at \$10 each. The freight was loaded into a wagon and carried to the polls.

As the newly bought voters were dismounting they were kidnapped by the Democrats, who took them around the corner. When they were through with them, the infirmary voters were no longer Republicans but life long Democrats.

The price was \$10 a vote.

The judge is trying to decide whether it is grand or petit larceny to steal a \$5 voter. The infirmary voters who were stolen are of the batch of 124 voters who were indicted by the special grand jury Monday on the charge of selling their votes last election day.

They are coming in a body to West Union, county seat, to be disfranchised for five years and to be fined amounts equal to that which they got for their votes. The politicians who bought them are paying their fines.

It is said that a fund nearly equal to that put up for vote buying last election day is being raised by the leaders of both parties.

The total number of vote-sellers who have been indicted so far is 124. One hundred more indictments are expected today. One hundred and sixty have pleaded guilty and several hundred more indicted vote sellers are driving across the country from Manchester to come into court and confess.

The grand jury adjourns Thursday and will meet again on January 2. By Thursday it will have completed the investigation of the entire county. Beginning next Monday the jury will make a second survey of the county and indict all those who have not been caught in the first investigation. It is estimated here that 124 voters have been missed so far.
